

Car Wash Improvement Plan

Audit findings and a 90-day plan to grow revenue
with the same boxes and the same team

ESG Car Wash · Tbilisi Mall

Prepared 21 September 2026

Data: 3,744 washes logged by the ERP (2 Jun – 20 Sep 2026, 107 shifts)
plus 365 day-records from the manual sheets (May 2025 – Apr 2026)

The business is growing. The upside is in mix and repeat visits, not capacity.

Every 2026 month is 13–31% above the same month of 2025 and September is the best month per day you have ever had. At the same time the four boxes are only about half busy even at the 14:00–17:00 peak, 88% of customers buy the cheapest product, and 60% of cars never come back. Fixing those three things is worth roughly **+12,000–15,000 ₺ a month** within a quarter, with no new equipment.

was 43% in 2025

What is working

- Volume **and** ticket are both up — growth is real, not just price.
- Managers price sensibly: 120 over-list charges (+1,697 ₺) vs 66 under-list (–782 ₺).
- Weekends are strong: Saturday 1,860 ₺/day, Sunday 1,770 ₺/day.
- A loyal core exists: 559 plates came back 2+ times, 51 came 5+ times.
- The Reno fleet contract works — a proven B2B model to copy.
- Labour is variable (35–40% per wash), so slow days do not sink the month.
- Large headroom: 4.7 cars per peak hour across 4 boxes.

What is holding it back

- **No middle product.** Standard 30–50 ₺, then VIP at 100–170 ₺ (3× jump). Nothing in between sells.
- **No retention.** 2,741 plates, 60% one-time; phone captured on 1% of visits.
- **Empty mornings and weak Tue/Wed.** 13% of washes before 12:00; Tue/Wed ≈ 1,220 ₺/day vs 1,650–1,860 Thu–Sun.
- **Leaks ≈ 1,500 ₺/month:** comp washes booked as revenue, unpaid tabs, price typos (one 501 ₺ entry).
- **Data discipline:** 13 days logged entirely to Box 1; 4 shifts never closed; May 2026 has no records.
- **Cash control:** 71% cash, no reconciliation at shift close; card share varies 17–35% by manager.

Three priorities

1. Sell more per car — add-ons and a “სტანდარტი+” tier fill the 40→120 ₺ gap. **2. Bring cars back** — plate-based loyalty and a mall-staff pass. **3. Fill dead hours** — morning wax, Tue/Wed double stamps, fleet contracts. Underneath all three: fix the leaks and the shift-close controls.

16 months of results

Month	Days	Cars	Revenue £	£ / day	Avg ticket	Card %	Washers £	Manager £	Net after labour
May 2025	21	657	26,319	1,253	40.1	20%	9,623	2,009	14,552
Jun 2025	29	870	34,394	1,186	39.5	20%	12,170	2,681	17,988
Jul 2025	29	910	35,324	1,218	38.8	18%	12,545	2,967	17,193
Aug 2025	30	911	37,273	1,242	40.9	12%	12,805	3,654	18,449
Sep 2025	29	816	31,650	1,091	38.8	14%	11,291	3,440	16,157
Oct 2025	30	796	32,531	1,084	40.9	16%	11,410	3,334	16,055
Nov 2025	30	997	38,758	1,292	38.9	21%	13,865	3,786	19,910
Dec 2025	31	1,167	45,208	1,458	38.7	24%	16,120	4,564	22,674
Jan 2026	28	1,057	42,204	1,507	39.9	30%	15,001	3,397	22,656
Feb 2026	26	819	34,768	1,337	42.5	31%	12,416	3,615	17,192
Mar 2026	31	822	34,406	1,110	41.9	30%	12,292	3,963	17,496
Apr 2026	28	958	41,159	1,470	43.0	27%	14,731	4,155	20,946
May 2026	no records exist — not in the manual sheets, not in the ERP (≈ 40,000 £ of business with no paper trail)								
Jun 2026	29	1,059	45,150	1,557	42.6	26%	16,164	4,773	22,848
Jul 2026	29	974	42,156	1,454	43.3	25%	15,111	4,287	21,511
Aug 2026	29	981	42,204	1,455	43.0	27%	15,089	4,211	21,744
Sep 2026 (to 20th)	20	730	32,895	1,645	45.1	27%	≈12,400	≈2,700	≈17,800

Manual-sheet months are summed from the day rows (their totals rows are incomplete and “Cash Left” carries hand adjustments). ERP months are from the daily archives. “Net after labour” excludes rent, utilities, chemicals and card fees, which are not recorded anywhere.

Year on year

- Jun: 34.4K → 45.2K (+31%) · Jul: 35.3K → 42.2K (+19%) · Aug: 37.3K → 42.2K (+13%)
- Sep pace: 1,091 → 1,645 £/day (+51%), partly from staying open later.
- Summer plateau: June was the peak; July and August did not grow on it.
- Card share doubled (12–20% → 25–31%); cash is still 71% of money.
- Labour rose from 43% to 46% of revenue as VIP share and bonuses grew.

What a normal day looks like (Jun–Sep 2026)

- Median 34 cars and 1,540 £; a weak day is 23 cars, a strong day 49.
- First car at 10:45 on a median day; last car 19:34. Earliest 10:01, latest 21:25.
- 47 of 107 shifts crossed 1,600 £; 18 crossed 2,000 £.
- Best day ever: 6 Aug (69 cars, 3,065 £). Worst: 7 Jul (14 cars, 535 £).
- Last October was the weakest full month (1,084 £/day) — plan the autumn campaign now.

Product mix, hours, weekdays, customers

Wash types (3,744 washes)

Standard		88.5%
VIP		5.6%
Exterior only		4.5%
Other (სხვა)		0.9%
Interior only		0.4%

Underbody wash, pet-hair cleaning and the 300 ₾ detailing service sold ≈ 0 times in 3.5 months. “მრეცე” was never sold. Minivans are logged as XL (not a car type in the ERP).

Car types

Type	Share	Avg ₾	VIP price actually paid
სუპერ	36%	33.6	100–130 (avg 112)
ჰიპი	41%	43.8	100–170 (avg 127)
ჰიპი XL	23%	58.2	100–220 (avg 141) — not on the menu

Payment

Method	Washes	₾	Share
Cash	2,582	115,311	71%
Card	1,037	42,702	26%
Talon / comp	79	2,958	1.8%
Reno (fleet, invoiced)	35	902	0.6%
Unpaid (never collected)	11	532	0.3%

Washes by hour

10:00		175
11:00		317
12:00		379
13:00		406
14:00		498
15:00		459
16:00		425
17:00		405
18:00		395
19:00		245
20:00		35

Peak hour ≈ 4.7 cars across 4 boxes: even the busiest hour runs at roughly half capacity. The poster says 10:00–21:00; the wash effectively runs 10:45–19:30.

Revenue per day by weekday

Saturday		1,860 ₾
Sunday		1,770 ₾
Thursday		1,643 ₾
Monday		1,492 ₾
Friday		1,384 ₾
Wednesday		1,234 ₾
Tuesday		1,203 ₾

Customers

- 2,741 distinct plates; **1,634 (60%) came once.**
- 559 came 2+ times, 199 came 3+, 51 came 5+. Repeat plates = 41% of washes, 40% of revenue.
- Top customer JE-025-EP: 14 visits, 740 ₾. The plate is captured on 100% of visits — that is the loyalty key.
- Phone numbers captured on 39 of 3,744 washes (1%).

Money that is lost, phantom, or unverified

Leaks — ≈ 1,500 ₪ / month

- **Comp washes booked as revenue.** 79 “talon” washes, 2,958 ₪ (≈ 850 ₪/month) with no cash behind them — the same names repeatedly (ES-001-GI ×14, MISHA ×7, VACHE ×6, WW-948-UW ×8, KOPE ×3 incl. two VIPs). Washers were paid ≈ 1,000 ₪ on them and they count toward manager bonus thresholds.
- **Unpaid tabs closed as pending:** 11 washes, 532 ₪ never collected.
- **Price typos move money:** one 50 ₪ wash entered as **501 ₪** (revenue overstated 451 ₪, that box's washer overpaid ≈ 160 ₪); nine washes entered as 2–5 ₪ instead of 25–50 ₪.

Data discipline that breaks the pay system

- On **13 days every car was logged to Box 1** — including 58-, 48- and 46-car days: 502 cars, 24,000 ₪ (15% of revenue) attributed to one box's washers.
- On ≈ 8 days the whole morning was typed in one afternoon batch (25 cars in 17 minutes on 23 Jul); the live dashboard was blank for those hours.
- 4 shifts were never closed, so two days' cars merged into one archive (fixed in the app this week).
- Bonus is a cliff (1,590 ₪ = nothing, 1,600 ₪ = 50 ₪) on a total that includes comp, Reno and unpaid washes; the 10% VIP bonus is paid on unpaid VIPs.

Cash control

71% of revenue is cash. Nothing at shift close reconciles the card terminal or the counted cash against the system. Card share by manager: **ACHIKO 35% · DATO 29% · SABA 28% · ILIA 17%** — one of ILIA's 23-car days shows zero card payments. This may simply be habit; the point is that today it is unverifiable. A one-minute reconciliation step at close (terminal total + counted cash, difference stored in the archive) closes the gap.

Manager comparison (Jun–Sep 2026)

Manager	Shifts	Cars / shift	₪ / shift	Avg ticket	VIP share	Card share	Phones captured	Under-list charges
DATO	40	31.5	1,401	44.5	6.1%	29%	14	21
ILIA	31	36.1	1,577	43.7	6.8%	17%	0	23
ACHIKO	20	36.6	1,517	41.4	3.3%	35%	4	15
ፊፊፊ (to mid-Jul)	15	37.7	1,606	42.6	5.1%	28%	21	7

- DATO works the most shifts but brings in 150–200 ₪ less per shift than the others with a similar weekday mix, and has most of the late first-car days.
- ACHIKO sells VIP at half the team rate; matching ILIA's rate would have been worth ≈ 2,500 ₪ over his 20 shifts.
- Under-list charges are spread evenly — pricing discipline is not a person problem.
- These are conversations, not conclusions. The ERP now measures all of this every month, so the same table can be reviewed with the team.

Costs outside the system

Rent, water, electricity, chemicals and card fees are not recorded anywhere, so “net after labour” (≈ 22,000 ₪/month) is not profit. Entering them once a month in the master sheet makes the real margin per month visible — and shows whether the growth is actually reaching the bottom line.

Sell more per car and bring cars back

1 Add-ons: sell VIP's ingredients one at a time

+2,500–4,000 ₾ / mo

Standard already includes vacuum and shine; the things that make VIP “VIP” (wax, tyre silicone, fragrance) are only sold as a 100–170 ₾ bundle. Offer them on top of any wash: wax 15/20 ₾, tyre silicone 5, fragrance 5, leather care 20, plastic dressing 20 — plus the existing underbody 15 and pet-hair 20. Material cost is 0.5–2 ₾ each.

- Rule for managers: **offer one add-on to every car, every time** (“ცვილს დავამატებთ? +20 ლარი, სამ თვეს იცავს”).
- Washers get the same 35% on add-ons so they push them too; you still keep $\approx 60\%$ margin.
- 15% attach rate ≈ 5 cars/day $\times 17$ ₾ $\approx 2,500$ ₾/month; a good counter reaches 25%+.

2 “სტანდარტი+” tier and a proper VIP ladder

+2,000 ₾ / mo ($\approx 1,000$ margin)

Name one bundle so the ladder reads 40 $\rightarrow$ 55 $\rightarrow$ 120: **სტანდარტი+ = standard + wax + tyre silicone** at 45 / 55 / 65 / 75 ₾ (sedan / jeep / XL / minivan). Put **XL VIP on the menu at 150 / 170** — customers already pay it, it just has no fixed price. Add მინივენი as a car type.

- Show the ladder at the counter so 120 ₾ has a reference point instead of looking like 3 $\times$ the price.
- Track VIP share per manager on the live screen; target 9% team-wide (from 5.6%). Pay the 10% VIP bonus only on paid VIPs.

3 Plate-based loyalty — no app, no phone needed

+3,000 ₾ / mo

The ERP already recognises every plate. **Every 6th wash free**: the manager sees “5/6” when typing the plate and tells the customer. It is a 16.7% discount that only ever reaches people who came six times — it pays for itself by pulling forward visits 2, 3 and 4.

- Ask for the phone at the 3rd visit (“we’ll text you when your free wash is close”); SMS reminder every 3 weeks (≈ 0.05 ₾ each).
- **Monthly pass for mall staff**: 4 standard washes for 100 / 130 / 160 ₾, prepaid. 50 passes $\approx 5,000$ –6,500 ₾ prepaid, about half of it incremental.
- If repeat washes move from 41% to 50% of volume, that alone is $\approx 3,000$ ₾/month.

Fill dead hours and keep the money you earn

4 Sell the detailing service in the dead morning hours

+2,000–2,800 ₪ / mo

A 300 ₪+ product that sells ≈ 0 times a month, and boxes that are empty from 10:00 to 12:30. One detailing slot per day, mornings only, bookable through the existing QR app with a 50 ₪ deposit. Before/after photos on Instagram and TikTok, a laminated album at the counter, 20 ₪ flat to the manager per detail sold. Six to eight details a month uses capacity that earns nothing today.

5 Fill Tuesday/Wednesday and mornings — without cutting peak prices

+3,000–4,400 ₪ / mo

Utilisation is ≈ 50% even at peak, so discounts at peak are unnecessary; off-peak incentives are almost free money.

- **Morning gift**, weekdays before 12:30: wax free (costs 1–2 ₪ in material and trains customers to value wax).
- **Loyalty stamps count double** on Tuesday and Wednesday.
- **Fleet contracts on the Reno model**, off-peak only: mall tenants' cars, Bolt/taxi drivers, courier vans, nearby dealerships (pre-delivery washes), rental companies — 15–20% off with a monthly invoice, valid Mon–Wed or before 13:00. Three fleets × 40 washes ≈ 3,000 ₪/month.
- **Mall partnership**: “drop the car, shop, pick it up” — a 10% code on mall receipts, signage at the parking entrance, inclusion in tenant promotions.
- Deliver the evening or change the poster: 20:00–21:00 produced 35 washes in 107 days, yet the late September nights coincided with the best month per day.

6 Keep the money you already earn

+1,500 ₪ / mo + control

- A separate **comp** category (staff and owner cars) that does not count as revenue or toward bonus thresholds; washer pay on comps becomes a deliberate choice.
- **No shift close with unpaid tabs** unless a name and phone are recorded.
- **Price sanity check** at entry (warn outside 50–200% of the usual price), **mandatory box** selection, and a **card-terminal / cash-count reconciliation** step at close that stores the difference in the archive.
- **Bonus on paid revenue only**; consider a percentage above 1,600 ₪ instead of a cliff.
- Enter fixed costs monthly so the net line in the master sheet is real.

What not to do

Do not cut standard prices — they are market-normal and customers already accept 35/55/60 over-list charges without complaint. Do not add a fifth box — the four you have are half empty at peak. Do not launch a customer app — the plate already does the job.

90 days, in order

When	Do	Gain / month
Week 1	Print the new menu DONE · add მინივენი, სტანდარტი+, add-ons and XL VIP to the ERP · “offer one add-on to every car” rule · comp category and close-of-shift guard rails in the app	+1,500–2,000 ₾ + leak fixes ≈ 800 ₾
Weeks 2–4	Plate loyalty live in the ERP · morning free wax · VIP share per manager on the live screen · detailing bookable in the QR app · start the photo library	+2,500 ₾
Month 2	Mall-staff monthly pass · approach 5 fleets (target 3 signed) · mall partnership · SMS reminders from collected phones	+4,000–6,000 ₾
Month 3	Review attach rate and VIP share per manager · pre-winter “underbody + wax” package for October–November (last October was the weakest month) · bonus redesign on paid revenue	+1,500 ₾
Realistic run-rate by the end of month 3, on today's ≈ 45,000 ₾ base		+12,000–15,000 ₾ (+25–33%)

Measure every month (already in the master sheet, or one line from it)

- Revenue per day and cars per day, vs the same month last year
- Average ticket — the add-on and VIP levers show up here first
- Add-on attach rate and VIP share, per manager
- Repeat share: % of washes from plates seen before
- Washes before 12:30 and on Tue/Wed
- Comp ₾, unpaid ₾, cash difference at close
- Labour % of revenue (target: back under 44%)

Decisions needed from you

- ☐ Confirm add-on prices and the სტანდარტი+ price points (menu is printed with 45/55/65/75)
- ☐ Washers get 35% on add-ons — yes / no
- ☐ Loyalty rule: every 6th free, or 20% off the 6th
- ☐ Hours: keep 10:00–21:00 and staff the evening, or print 10:00–20:00
- ☐ Comp policy: who washes free, and are washers paid on those cars
- ☐ Which 5 fleets to approach first

App changes to build (one release)

მინივენი as a car type · სტანდარტი+ as a wash type · add-on chips on each wash row that add to the price and show in the archives · XL VIP in the price hints · plate loyalty counter (“5/6” when the plate is typed; 6th free) · monthly pass as a payment type · comp category excluded from revenue and bonus · price sanity warning · mandatory box · close blocked with unpaid tabs unless name + phone recorded · terminal / cash reconciliation at close · VIP share and add-on rate per manager on the live screen · Telegram alert if nothing is logged by 11:15.
